PROFILE

Soy una persona con predisposición, valor y responsabilidad ante el trabajo y su ambiente. Tengo las mejores intenciones para la adaptación y capacidad de aprendizaje en el ámbito laboral, tanto grupal como individualmente.

I am a predisposed person, with courage and responsibility towards work and its environment. I have the best intentions for adaptation and learning ability in the workplace, both as a group and individually.

TECHNICAL BACKGROUND

- React.js
- Node.js
- SQL (SQLyog, MySQL)
- CSS
- JavaScript
- Visual Basic .NET
- Git, GitHub

PROJECTS

Juegos Evita 2023
React.js, Node.js, SQLyog

Juegos Evita es un torneo nacional que abarca diferentes eventos y sus respectivas disciplinas. La aplicación es destinada a los administradores del evento y permite realizar todas las operaciones CRUD en los eventos, disciplinas, participantes y sus invitados.

Juegos Evita is a national tournament encompassing various events and their respective disciplines. The application is designed for event administrators and allows them to perform all CRUD operations on events, disciplines, participants, and their guests.

UOM
React.js, Node.js, DBeaver

Reportes y detalles de empresas para la obra social destinada a los administradores de UOM. Operaciones como inconsistencias de sueldos, Afiliados inconsistentes por boletas, entre otras.

Reports and company details for the social welfare program designed for UOM administrators. Operations include handling salary discrepancies, inconsistent affiliates due to invoices, among other tasks.

CRUD Task Manager
React.js, CSS

Un gestor de tareas capaz de almacenar datos en LocalStorage de Chrome, lo que permite mantener la página cargada con las tareas enviadas.

A task manager capable of storing data in Chrome's LocalStorage, allowing you to keep the page loaded with submitted tasks.

EDUCATION

UTN - Facultad Regional Delta
Tecnicatura Universitaria en Programación · 2021 - Presente
Trabajando últimamente esta relacionado más con la programación imperativa: diagramas de flujo, algoritmos para contabilizar o registrar, entre otros.

What I have been working on lately is more related to imperative programming: flowcharts, algorithms for accounting or registration, among other tasks

Instituto Federico Dickens - Colegio Secundario
Bachiller en Administración de Empresas y Economía · Completo
